When colonial-era hunters descended on Africa in the late 1800s, they were on a quest for adventure and the “trophy” of taking home one of what became known as the Big Five—the Cape buffalo, African savanna elephant, leopard, lion and black rhinoceros. In addition to being deemed the most dangerous, these five African mammal species were considered the most challenging to capture. Of course, the thrill of the modern safari is to witness these spectacular creatures in their natural habitat—photographing some of the most awesome wildlife on the planet. Keep your cameras and binoculars ready for Big Five game viewing and bird watching on our land safaris at the acclaimed Sabi Sabi Private Game Reserve and through Chobe National Park, followed by a three-day cruise down the Chobe River to the edge of Namibia.

Experience the awe of this region as we journey from the vast array of habitat types in South Africa to the fertile floodplains of Botswana, a sanctuary for one of Africa’s largest elephant populations. In addition to the Big Five, look for elephants, zebras, giraffes, a multitude of birds and the rare puku antelope. And don’t forget to look down, as the elusive hippo and crocodile have been known to make an appearance in the river itself.
Step back in time to pivotal moments in South Africa’s anti-apartheid movement and Nelson Mandela’s autobiography, “Long Walk to Freedom.”

Inspiring visits and illuminating discussions reveal the historic 20th-century milestones that culminated in the momentous inauguration of South Africa’s first Black president—laying the foundation for progressive economic, social and political prosperity. Follow in Mandela’s footsteps through Soweto, visiting his former home on renowned Vilakazi Street, and explore UNESCO World Heritage-designated Robben Island, the isolated former outpost for political prisoners off the coast of Cape Town. On April 27, 1995, the first commemoration of Freedom Day—a public holiday celebrating the anniversary of that historic moment—Mandela addressed the people of South Africa with considerable optimism about the “past from which we come as a nation; the great possibilities that we now have; and the bright future that beckons us.” Mandela’s legacy as an activist, leader and great humanitarian still resonates today.
